Vinura Pathum Sandeepa

Undergraduate Software Engineer

Software Engineering undergraduate with project experience in backend development, REST APIs, databases and full-stack applications. Experienced with Java, Spring Boot, React, Flutter and ASP.NET Core, with an interest in scalable systems and AI-assisted software.

Projects

GemoraAI | AI-Assisted Gemstone Marketplace (Group Project)

React • Flutter • ASP.NET Core (C#) • PostgreSQL • Gemini API

- Cross-platform gemstone marketplace with seller listings, image and certificate uploads, authenticated dashboards and REST API integration.
- AI-assisted gem analysis flags potential issues for human gemologist review; workflows also cover shipping and export compliance.
- Contributed to seller-facing React/Flutter features, listing-related flows and software testing.

Live Demo: https://gemora-marketplace-web.onrender.com

QuickBite Food Delivery System (Individual Project)

React · Java · Spring Boot · REST APIs · JPA/Hibernate

- Developed backend services, database operations and menu/order management.
- Built the full system independently, using Git for version control.

Live Demo: https://quickbite-food-delivery-system.vercel.app/

Gym Management System (Group Project)

Full Stack · REST APIs · Secure Authentication · API Integration

- Developed the Feedback and Rating Management module, enabling members to submit, update and view ratings and reviews through REST APIs.
- Implemented secure feedback handling, average rating calculation and API-based feedback summarization for trainer/admin review.

Airline Ticket Reservation System

HTML5 · CSS3 · JavaScript · Spring Boot

- Created frontend interfaces, REST API backend and Admin/Traveler dashboards.
- Implemented ticket booking CRUD and payment management workflows.

Education

Sri Lanka Institute of Information Technology (SLIIT)

2024 - Present | Malabe, Colombo

BSc (Hons) in Information Technology (Software Engineering)

CGPA: 2.9 (end of Second Year, First Semester)

St. Aloysius' College Rathnapura

2019 - 2023 | G.C.E. Advanced Level - Engineering Technology

ICT - C · Engineering Technology - S · Science for Technology - S
